

## **Advantages of Using Riepe® Products**

### **Finished Quality**

- Using Riepe® products during the Edgebanding process allows the user to achieve a high-quality finish without glue residue

### **Low Consumption**

- Electronically controlled spraying units ensure constant and stable liquid application. The yield of application is 5,000m (16,400ft) per 1 liter of Riepe® liquid per nozzle.

### **Lower Production Cost**

- By providing a quality finish, the process eliminates the need for manual cleaning after Edgebanding increasing production output and productivity.

### **Safe to Use**

- Riepe® products are safe to use and do not emit dangerous fumes.
- Riepe® products will not damage Edgebanding machines, especially rubber parts.

### **Lifetime Guarantee**

- Riepe® guarantees its spraying units for life, when used in conjunction with Riepe® fluids.

### **Local Stock**

- RAMS Industries ensures a ready supply of Riepe® products is always available.
